A = This grave is not listed in the 1892 book by Wheeler and Halsey. This man has a GI stone just behind the leased youth Building. He was an officer in the Revolution & served on the New Jersey Supreme Court. He took part in the famous case announced in April 1807, "Den ez den.Clark v. Lane. This suit between Capt. Aaron Clark & his brother Abraham Clark, MD, both sons of the Signer. Aaron Clark had been willed property by his grandfather, Judge Thomas Clark in his 1765 will. When their mother passed, the doctor sold the entire homestead including Aaron's share. This included Aaron's gift from his grandfather. The court ruled that the gift still belonged to Aaron who was living in Washington, Washington Co. Pa.

B = 1st wife Jane Wood who were the parents of Susan Winans Clark, the wife of Aaron Clark, son of the Signer.

### **General Notes**

The rows of graves are aligned with Broad Street; the first row is just inside the stone wall. The further away from the wall the row numbers go up. The grave numbers go up as you go away from the church building. In the area behind the church, the arrangement gets very irregular. The graves thin out as one approaches the parking lot. There are many missing grave stones;just count from the last stone till you get to the missing stone.

By page # I mean the page in the Daughters of the American Revolution "Patriot Index" of 1966. This 771 page volume contains the names of many thousands of the men & women who served in our countries victory over the 'mother country" in 1783. In addition to their names, listed are the dates of birth & death,names of wife wives or husbands, rank or type of service, and the state where the patriot lived or served. If pension papers are known to exist, this fact is indicated. These page numbers are not useful in the 1990 edition.

Revised by Robert A Reynolds, May 2006
